OUR FOOD IS OUR PHILOSOPHY

Started by two close mates the idea of drawing from their favourite artist Butch Walker was key to the brand and it's inspiration. A young hospitality group that wants to bring wholesome and flavorsome food to the local neighbourhood.

Community is a priority to us, so we source our produce from local Victorian farmers to support families and businesses.

We are passionate about bringing innovative dishes that are influenced by the food culture of Los Angeles and the internationally recognised Melbourne brunch scene.

Our menu delivers items that could be found in St. Kilda and all the way to Santa Monica. We create number of Vegan dishes as well as some of the on-trend plates Melbourne offers. We are committed to fresh produce and the best ingredients hand picked from Melbourne's best suppliers.
